Durham average selling price continues to increase year-over-year

DURHAM REGION, December 5, 2017 - Durham Region Association of REALTORS® (DRAR) President Dennis Roberts reported 879 residential transactions in November 2017, a 4 per cent increase from October 2017. “The balance between supply and demand for homes continues to be very tight as we inch closer to the end of 2017,” stated Roberts.

November saw a slight decrease in listings of 1632 from 1698 in October. There is large increase year over year from November 2016, where there was 1154 listings, an increase of 47 per cent. 2016 did not represent the historical norm.

Durham continues to offer a balanced market where both buyers and sellers have the opportunity to complete the housing transactions without multiple offers, while still enjoying an increase in selling price over last year. November 2017’s average selling price was \$574,901 which represents a slight increase over the same month in 2016 at \$574, 694. The relaxed market is also supported by the number of days on market. The average days on market for November 2017 was 23 days, in comparison to November 2016 where it was only 13 days.

“Durham Region is seeing development in residential, commercial, and land, as well as the development through transportation and technology projects, all in which is stimulating new investment interest,” says Roberts . “Durham Region is an affordable and prospering place to live.”

Roberts also added, “I am very proud of Durham’s REALTORS® who came together to raise over \$20,000 at our Annual Christmas Dinner and Charity Auction for DRAR’s 2017 Charity of Choice, Hearth Place”. Hearth Place is a Cancer support center for patients and their families who offer peer support, information, wellness programs and a resource center. All funds raised thru DRAR are committed to their new End of Life Room.

Overview

The Durham MLS® Statistics provided are compiled by the Durham Region Association of REALTORS® and are based on total home sales. The statistics reflect selling prices for various property types within the Durham Region. These statistics are for informational purposes only.

TA	Total Active (at the end of the last day of the month)
YTD	Year to Date (accumulation of new data to date)
PYTD	Previous Year to Date (accumulation of new data to date for previous year)
%+/-	Year Over Year Percentage Differential
Avg. DOM	Average number of days on the market for firm transactions between the first & last days of the month
Avg. SP/LP	Ratio of the average selling price to the average listing price for firm transactions between the first & last days of the month
MOI	Months of Inventory (how long in months it would take to completely sell the average number of active listings). Calculated using a 12 month moving average (active listings/sales)

2016	12,654	533,828

NOTES

Sales, dollar volume, average sale prices and median prices are based on firm transactions into the MLS® System between the first and last day of the month/period being reported. Average price is calculated by dividing the dollar volume by the number of sales. Median represents the middle number in the ranking of homes sold from lowest to highest price. As of July 2011 Durham Region statistics figures include the municipalities of Uxbridge and Brock. Due to changes to service areas, caution should be exercised when making historical comparisons. Past monthly and Year-to-Date figures are revised on a monthly basis. All statistical information obtained from the Toronto Real Estate Board's Market Watch. Mos. Inv. is Months of Inventory (how long in months it would take to completely sell the average number of active listings). Calculated using a 12 month moving average (active listings/sales).
